Course Syllabus

Course Overview
This course will introduce the student to the range of opportunities for diversifying a working farm or ranch by providing enjoyment and education to visitors for profit. Local experts will guide participants as they assess their own farms or ranches for agritourism potential and start creating business, risk management and marketing plans for their own agritourism operations. Local experienced agritourism operators will share their own experiences and will be part of a supportive network of advisors as class participants plan and start new enterprises.

Students will participate in individual exercises and will share their work during class discussions, and will have homework assignments to complete between the class sessions. The homework will include completing several assessment worksheets in cooperation with family or business partners, as well as writing first drafts of parts of their own business plans. Class instructors will provide each participant with individual feedback on all assignments turned in. No educational credit will be given for this course.

The participants will be encouraged to (but not required to) participate in group online discussions about the classes, readings and individual planning work.

Times: 8:30 a.m. – 4:00 p.m. each session (lunches included)
Location: Harvest Hall, Stanislaus Co. Ag Center, 3800 Cornucopia Way, Modesto, CA
Cost: $50 for 3-session course
